

Avaco

Vacuum therapy

Features

product code A-UV-AST-VCWH
manual mode

independent treatment channels

1

Vacuum therapy

operation modes: continuous, pulse, variable pulse, synchronized with the electric current, pulse with increased lower vacuum	✓
two independent treatment channels (easy operation in single-channel mode)	✓
self-sealing suction cups	✓
possibility of vacuum adjustment	✓
current parameter control during the treatment procedure	✓
container filling signalization	✓
dedicated mode for emptying the water container	✓
independent sockets for the application of electrotherapy electrodes	/

Vacuum therapy technical parameters

 vacuum wave pulse frequency
 6, 12, 20, 40, 60 imp/min

 vacuum
 maks 500 mbar/hPa

 vacuum adjustment range
 100 - 500 mbar, step 40 mbar

General technical parameters

dimensions $30 \times 26 \times 12 \text{ cm}$ device weight 3,5 kgpower supply, power consumption 230 V, 50 Hz, 20 W, 40 VA

number of suction cups
